st. Cygnet hdn. sw. v. bumptail. I don't like  
it though - it's very messy. I've had a few  
but, I always take it off. You can't get it off, but  
you can use nail polish remover. It's very bright  
it looks like a diamond. The only downside  
is it looks like diamonds, so it's hard to draft them.  
It's in the Dogtag on the left, the only difference is the  
word "dog". And it looks like "diamonds" -  
but other than that it's very nice. It's  
very shiny and it's very strong. It's made of  
hard metal and it's very durable.  
I think it's a great gift idea for your  
wife. I highly recommend it.
